

## Quality development in Health Promotion and Prevention Practice

Pilot Project  
WG “Evidence and Quality Management in Prev+HP”

Prof. Dr. Ulrike Maschewsky-Schneider, BSPH  
Dr. Beate Robertz-Grossmann, BVPG  
Prof. Dr. Michael Wright, WZB&EFB

RG/MW | 24.09.2010

### **BVPG - organizational network of German HP+Prev organizations operating on a national level:**

state health organization for HP&Prev, statutory health insurances, social welfare organizations, health professions organizations, chamber of physicians and pharmacists, etc.

### **Goals and obligations in HP+Prev**

- **coordination of interdisciplinary competencies**
- **targeted cooperation and action**
- **advocacy for quality and effectiveness**
- **advocacy for HP+Prev policies, programs and structural change**

RG/MW | 24.09.2010

## Federal Association for Prevention and Health Promotion (BVPG)

**Status quo in Germany**

- no consensus regarding concepts and methodological standards regarding evidence, quality criteria and instruments for quality assurance/ management
- no transparency regarding concepts of QM
- no comprehensive system as a roof for the diversity of quality development approaches
- insufficient communication and networking between science, policy and practice
- insufficient integration of Germany into international networks and achievements

RG/MW | 24.09.2010

## Federal Association for Prevention and Health Promotion (BVPG)

**BVPG – Process of quality development**

Clarify concepts and comprehension

✓ **Working Group**

Survey members of BVPG (winter 2009-10)

✓ **Research contract**

Feedback to members of BVPG

✓ **Workshop (June 2010)**

Framework for BVPG members

✓ **open**

RG/MW | 24.09.2010

## Federal Association for Prevention and Health Promotion (BVPG)

### Aim survey of members BVPG

- Level and type of involvement of members into HP+Prev
- What are BVPG members doing regarding quality development (QD), quality management (QM), quality assurance (QA): concepts and instruments
- Focus: description of instruments and measures

### Online survey participation rate

- 130 members; 48% response, 35% questionnaires

RG/MW | 24.09.2010

## Federal Association for Prevention and Health Promotion (BVPG)

### Results (1/5)

A stock-taking report of quality development in HP+Prev in Germany is necessary.

### Results (2/5)

Members of BVPH operating on a national level are not the right target group for a survey: QD and QA is provided on a local level

### Results (3/5)

Stakeholders and organizations for HP&Prev do not have a common language: What are concepts of QD, instruments, measures, evidence vs quality?

### Results (4/5)

Survey of instruments of QD/ QA only is insufficient – the overall concept/ criteria have to be acknowledged.

### Results (5/5)

Instruments can be categorized: type, purpose, target group, service provider, user

RG/MW | 24.09.2010

## Instrument

Type of instrument	Number
Audit	2
Checklist	3
Controlling	1
Evaluation	4
Training	3
Questionnaire	8
Checklist, manual	3
Peer-Review	2
Program for QD/ QM	3
Guidelines	8
Supervision and Monitoring	1
Networking	2
Certification	5
Total	45

RG/MW | 24.09.2010

Workshop AG „Evidenzbasierung und QM in Prävention und Gesundheitsförderung“

### BVPG recommendations

- Framework (language, concepts) for QD (evidence, quality development, evaluation)
- agreement of BVPG members to basic criteria and principles of QD in HP+Prev
- BVPG competence center for QD
- BVPG members cooperate in QD, give mutual support
- Advocacy for QD in HP+Prev

RG/MW | 24.09.2010
