Gesundheit und Lebensmittelsicherheit

## Workshop Announcement

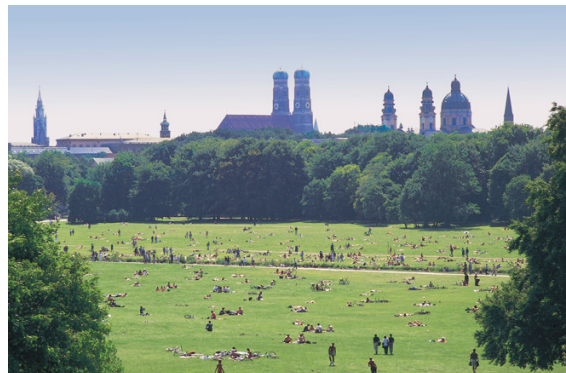

The Academic Working Group for Public Health Policy & Administration at the recently established Pettenkofer School of Public Health, University of Munich (LMU), the Institute of Medical Informatics, Biometry and Epidemiology, LMU and the Bremen Institute for Prevention Research and Social Medicine, Bremen University are jointly organising the international workshop **Evidence-Based Public Health: Concepts and Methods**, which will take place in **Munich, Germany on 17<sup>th</sup> and 18<sup>th</sup> November 2010**.

The workshop has three objectives:

- advance exchange among researchers and practitioners interested in evidence-based public health
- promote dialogue on concepts and methods for evidence-based public health
- learn about and advance methods for quality appraisal and intervention theory

The first day of the workshop will be dedicated to a general exchange on current developments in the field of evidence-based public health. The second day will focus on two specific methodological aspects of public health evidence synthesis: quality appraisal of individual studies and intervention theory. More details can be found at [www.evidencebasedpublichealth.de](http://www.evidencebasedpublichealth.de)

We look forward to seeing you in Munich!

Torsten Krüger/Tourismusamt München

Please contact the organisers for any further information regarding the workshop.
